Smart office solutions

Office technology the Swedish way. Technology that is easy to understand and easy to use - you will find that here at Swedstyle. Using smart solutions, we are developing the workspaces of tomorrow, right here in Småland, near to you and your business. You see, when innovative technology is combined with Swedish manufacturing and quality, the result is something completely exceptional.

Near to the customer

For 30 years now, Swedstyle has been the leading manufacturer of height-adjustable work stations in Scandinavia, with extensive expertise and experience in the field of office technology. As a market player enjoying proximity to our market, we work continually on refining our workspace solutions, in order to meet our customers' requirements for functional and effective workspaces.

We are always eager to identify new and still better solutions, and in our partnerships with other leading players in the industry we always aim to exceed customer expectations. Our projects are most successful when we are able to work in close cooperation with customers and architects in order to customise an office solution directly to their specific needs.

With creative staff, our own dedicated prototype workshop located next to our production facilities, and short transport routes to our subcontractors, we have created conditions where we can enjoy being flexible and coming up with new solutions.

Sit & Stand

Flexibility for a better work environment

Switching between standing and sitting positions while
working is believed to enhance energy levels and improve
general health and well-being. Our height-adjustable sit and
stand frames allow work stations to be quickly and easily
adjusted to suit the needs of each individual.
Swedish manufacturing standards mean we can guarantee
high quality and user-friendly, robust solutions.

Work stations that can be adapted to meet your needs

No one is made from the same mould: this is what underpins
our height-adjustable frame concept. We want to encourage
users to change their working position, since a number of
studies show that such an approach can have several health
benefits, as well as making us feel better as we work.
When you have plenty to do and no time to stretch your legs
at work, a standing working position is a good alternative.
We also have a range of accessories that give the frames
added functionality, such as hand controllers that can be
programmed with personalised settings.

Accessories

Smart, elegant and neat

Make sure the entire workspace is configured to the same high standard with the aid of some great accessories that eliminate those little things that spoil your day-to-day work, giving better structure to your workspace. We have a range of hand controllers with different functions, cable holders, screen brackets and power connectors. If you can't see the wood for the trees at your workspace, then Swedstyle accessories are just what you need!

Hand controllers that are easy to use

Our hand controllers, specially designed in-house, make it easy to use our height-adjustable desks in the most effective way. Our wide range makes it easy for everyone to find the controller best suited to them. You can, for instance, choose from controllers with touch functions or others that memorise your height settings.

# FOR FRAMES

Smart office solutions

Office technology for greater day-to-day work satisfaction and a smarter work environment - this is what we create at Swedstyle. With innovative, digital technology for the modern office, we help you find the right solution and be one step ahead of the trend.

For a smarter office, you should come to Småland. Småland has long been associated with innovation and business enterprise. At Swedstyle, we have taken this as our starting point to create better office environments combining superb interior design with the latest technology.
Using smart solutions, we are developing the workspaces of tomorrow, right here in Småland, Sweden.

You see, when innovative technology is combined with Swedish manufacturing and quality, the result is something completely exceptional.

Welcome to Sweden and Småland.

Terms and Conditions

Delivery from factory in Vaggeryd. Free shipping on order value exceeding SEK 25,000. Orders less than SEK 25,000 will be charged actual shipping. Delivery time 4 weeks.

Payment terms

All prices are exclusive VAT. Credit checks may be made for delivery and prepayment. 30 days net, the goods remain in Swedstyle's ownership until full payment has been made.
2% interest on late payments is calculated from the first day after payment is due.

Warranty terms

2-year warranty on manufacturing defects is calculated from the first month of delivery in normal use. If an error can be remedied by replaceable part of the product, the seller fulfills the warranty responsibility by sending the buyer a replacement part. The exchange takes place through the buyer's care. The exchange item is debited and the incorrect part must be returned to the seller immediately, unless otherwise agreed by the seller. The seller credits the buyer after approval. Deliveries are made in accordance with NL09.

Transport damages

Any deviations and damage must be noted on the consignment note and be notified by the buyer within 7 days of the goods received.

Showroom

Take a closer look at our range and draw inspiration from our Stockholm showroom. On ETAGE 1 of Rosenlundsgatan 40, we are part of a joint interior design display together with some other swedish companies. The common denominator we all share is a commitment to top quality and modern design. Here you will find everything you need to design and fit out a modern workspace.

Showroom: Etage1. Rosenlundsgatan 40, SE-118 53 Stockholm. www.etage1.se
