# SAYHELLO TO THIS YEAR'S NEWS!

We are happy to present *The Hut Lounge Collection* as one of our new additions to our product range this year, with the same clean design as our popular The Hut Collection. The aim of this product line is to provide relaxed, creative meeting places that suit the activity based work concept. Working many hours in front of a screen demands good tools. Our *V4 Monitor Arm* is a piece of news that helps you adjust the screen ergonomically. What you stand on while working also has importance for our body. Check out new anti-fatigue mat *Dot* – a circular version in the *StandzOn* range with the same great properties. Integrate movement throughout your day and arrange stand-up meetings by our new *Sketch Writing Board*, either mounted on the wall or on one of our floor screens. More news in our product range is *ScreenIT Standard Reinforced* – can take up to 25 kg in accessories. Is a thicker version of our popular *ScreenIT Standard*.

### HALFPIPE PACKAGE WITH KEYHOLE

For quick and easy mounting of the Halfpipe, select rail package with key holes mount and adjustable Halfpipe keyhole. Can also be mounted directly on any ScreenIT range with mount 642065. See page 16.

### SCREENIT A30 FLEXIBLE

The screen can be used as a desk, floor and wall screen. This screen is without holes and can be ordered with height adjustable mounting brackets. The screen can then easily be moved up and down with an Allen key. See video on [www.gotessons.com](http://www.gotessons.com).

# TOOLBARS, RAILS AND SCREEN ACCESSORIES

Toolbars enable you to create a practical and efficient workstation. All accessories are within easy reach placed on a suspended third level, keeping the desk surface clear and usable.

### FREEWALL DOUBLE TRACK

The toolbar that suits all accessories. It has a double profile concealing the attachment screws. Recommended mounting height: 310 mm above desk to top of the Freewall.

### FREEWALL

The toolbar can be screwed on a desk screen or to a wall. All accessories on pages 38-40 are suitable for the Freewall, Linjé 4Way and most other two line rails. Recommended mounting height: 310 mm above desk to top of the Freewall. The Freewall toolbar can also be fixed directly on the wall or other solid vertical surfaces.

Tip!  
For monitor arms  
and other heavier  
accessories we  
recommend the A30  
Reinforced with deskmount.

### A30 PEAK DESIGN BOOTH

Peak Design Booth is a booth solution with a slight tilted side screen to create dynamics and openness. The booth is coupled with zipper and can therefore be built in infinity. The height is as standard 1400 mm and the side screens have two different depths either 850 mm or 1200 mm. Select screens in the same textile or in a color scale as below to create unique workplaces. Keep clean and tidy around and under the desk by choosing a recessed cable grommet in the screens.

# ROOM-WITHIN-A-ROOM

Creating natural meeting places in large open spaces that today's offices often are made of, is one of the strengths with the room-within-a-room concept. Our popular The Hut Collection contributes with a dynamic feeling and an eye-catching detail, all while the screened off spaces generate creative condition and improve acoustics for everyone. This year we also present the new The Hut Lounge Collection, made up of relaxed and stylish pieces.

# THE HUT LOUNGE

Take your meetings to the lounge and converse in a relaxed environment. The Hut Lounge Collection offers convenient and comfortable spaces that suit many purposes. Combine The Hut Lounge with two benches and create an area for brainstorming, relaxed work or a place for a short nap.

Think outside the box and use pieces freely and in fun constellations. Mix and match the Free Bench with the Square Bench in an open zone or create an entire lounge area with different sized Huts and benches – whatever suits you. Thanks to the wheels attached to all of the Benches, everything can be moved with ease.

# WHITEBOARDS, NOTICE BOARDS, WRITING BOARDS

Stylish and practical writing and notice boards are a must for all creative meetings. We have a variety of solutions to offer, both those that are independent on wheels, those hung over screens or in our houses from The Hut Collection. Our notice boards are of good sound absorption where you can attach pictures and documents with needles, magnets or metal lists.

### THE HUT WHITEBOARD

Magnetic whiteboard with painted surface to hang in the houses from The Hut Collection. Write messages directly on the board or attach paper with help of magnets. The board is easy to clean and has a practical built-in pen shelf.

### WRITING BOARD FOR SCREENIT A30 AND SOFAS

Magnetic writing board with painted surface to hang over ScreenIT A30 desk and floor screens and Sofa Sound Booth. The board is easy to clean and has a practical built-in pen shelf. Can not be used on PAZ Sofa or Sofa Silent Group.

### SKETCH WRITING BOARD WALL

Attach the stylish and practical writing board on the wall and use for information or conveniently during standing meetings. The board's front is made of hardened safety glass with a plate of sheet metal on the back, making it possible to both write on the glass and attach papers with magnets. The board appears 30 mm from the wall when mounted.

### SKETCH WRITING BOARD FLOOR SCREEN

Stylish and practical writing board on wheels. The glass surface is made of hardened safety glass with magnetic surface, making it easy to attach both paper and write directly to the board.

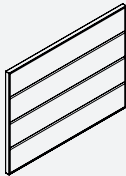

The board has four rotary and lockable wheels that allow you to switch quickly from whiteboard page to a sound-absorbing bulletin board, which conveniently attaches images and documents with needles.

# WALL AND CEILING ACOUSTICS

General noise pollution in open spaces is an increasing problem. We have sound absorbants designed for both wall and ceiling mounting. A screen on the wall can also be used as a pin-able bulletin or memoboard. Customize it and choose dozens of textile colours, zips and seams from our collection or even print on it!

Our products are made with EcoSUND® material, a great choice for your work environment thanks to the lack of glue or adhesives which in turn means no release of emissions and gas. As the material doesn't give off any fibers that itch, it's also a great product for allergists. EcoSUND® is made of recycled PET and is approved according to OEKO-TEX® Standard 100.

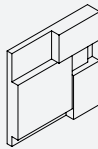

### NIVÅ ECOSUND® SOUND ABSORBING WALL PANEL

Nivå improves acoustics and its design makes it a feature in any room. The panels can be varied to form different patterns in different colours, with or without textile. Nivå is made of our unique core material EcoSUND. Our core material is available in three colours, and with the possibility of laminating with several different textiles, your wall becomes almost unique.

The thickness of the absorber varies over the surface from 30-90 mm in the cut rectangular and square patterns.

## EFFEKT ECOSUND® CEILING

An effective way to improve the acoustics of a room without having to change existing installations such as ventilation, cables, lights, etc. is to mount Effect ceiling absorbers. With even distribution based on the needs of the local area, it becomes an affordable solution that reduces a lot of audio spread in the longitudinal direction of the room. Customize your absorbents by choosing from three core materials and laminate them with the Hush textile, available in several different colours.

## EFFEKT ECOSUND® WITH PRINT

Make the absorber personal, choose your own image. Image suggestions are available at [www.gotessons.com](http://www.gotessons.com) or search on internet-based image banks.

## EFFEKT ECOSUND® ROOM DIVIDER

Effekt is made in three standard sizes and has a thickness of 50 mm for good sound absorption. Effekt is hung in wire strings that connect and form a wall. An affordable solution that reduces a lot of sound propagation in the length of the room and parts of the room in smaller rooms. Design your unique room divider by choosing from three different core materials, six different hang wires, and a variety of colours from the Hush textile. Effekt is not recommended for climbing.

## REST & RECUPERATION – OFFICE NAP

## SOUND – THE HUT LOUNGE

## ERGONOMICS – OFFICE BALLZ

## LIGHT – THE LIGHTNING

## AIR – PAZ SOFA

# FEEL GOOD AT WORK AND INCREASE YOUR PRODUCTIVITY!

With today's progress in the office environment, we are looking for more open landscapes and activity-based work areas. This means a new creative way of working, but it can also mean workplace health risks.

**Sound;** when more people share the same areas and fewer own offices, the noise level increases significantly. With today's architecture that involves a lot of metal, glass and other hard surfaces the sound bounces around and degrades the work environment. When entering the open offices of tomorrow, it's extra important to think about the sound absorbing products. An easy and stylish way to improve the acoustics is to create room-within-rooms, which dampens noise whilst generating creative meeting places.

*Read more about Room-Within-A-Room on page 54-63.*

**Light;** having good and different types of lighting in the workplace is a must. It is important to have good general lighting and that some of the lighting can be directed to avoid reflections and also that brightness can be adjusted individually.

*Read more about The Lightning on page 114-115.*

**Air;** here we struggle with the same problems as with sound, more people in the same spaces, breathing the same air. Indoor air has for some time been worsened due to air pollution, limited ventilation, energy savings. At the same time several major scientific studies show that people will be both healthier and more productive of working in clean air.

*Read more about PAZ products on page 33 and 97.*

**Rest & Recuperation;** research shows that a nap improves memory functions, increases performances and creativity. Taking a power nap can be compared with restarting your day. Make the most of your lunch – close your eyes for a few minutes and regain your energy.

*Read more about Office Nap on page 92-93.*

**Wellbeing;** ergonomically, it's best to change your way of working several times a day. Standing up or sitting on a pilates ball at the desk is proven better for health and promotes the right body posture. To change workplace and position is a way of preventing workplace related injuries. Stand up and walk around when you talk on the phone, suggest so-called "Walk and talk meetings" or why not stop and do some easy workout and exercise by the desk?

YOGA MAT STANDZON

Yoga is an ergonomically designed anti-fatigue mat that is ideal for standing work. It is a workplace mat made in the absorbent and sound-absorbing polyurethane material. The carpet features a handle that allows it to be easily hung on your screen when not in use. Fits hanging on the ScreenIT A30 hook. By standing up and working, you can prevent some diseases, gain better posture and a higher level of wellbeing. Why not use Yoga mat to do simple yoga or gymnastics exercises at lunch?

ANTI-FATIGUE DOT STANDZON

Dot StandzOn is new in this range of products this year as a sibling to popular Yoga Mat StandzOn. The circular shape nicely breaks off the classic square and rectangular shapes office furnishing often consists of. By standing throughout the day you are helping your body to stay healthy, all while building a better posture. The mat is made of polyurethane material, which helps to relieve the body of the effort of stand up work. It can also be hung conveniently with its handle on the desk hook or Screenit A30 Hook, see page 100.

### ANTI-FATIGUE MAT WAVE STANDZON

Wave is an ergonomic mat with massage properties. The carpet is made of polyurethane soundproofing material. The carpet is available in two different sizes and features a handle that allows it to be easily hung on your screen when not in use. Hangs nicely on the ScreenIT A30 hook, see picture on page 100.

### ANTI-FATIGUE MAT STANDZON

An ergonomically designed mat ideal for standing work. StandzOn is a soft mat produced in polyurethane which is sound absorbing and relieving.

By standing up and working, you can prevent some diseases, gain better posture and a higher level of wellbeing. Easy to wipe clean with a damp cloth.

DECORATE WITH PLANTS

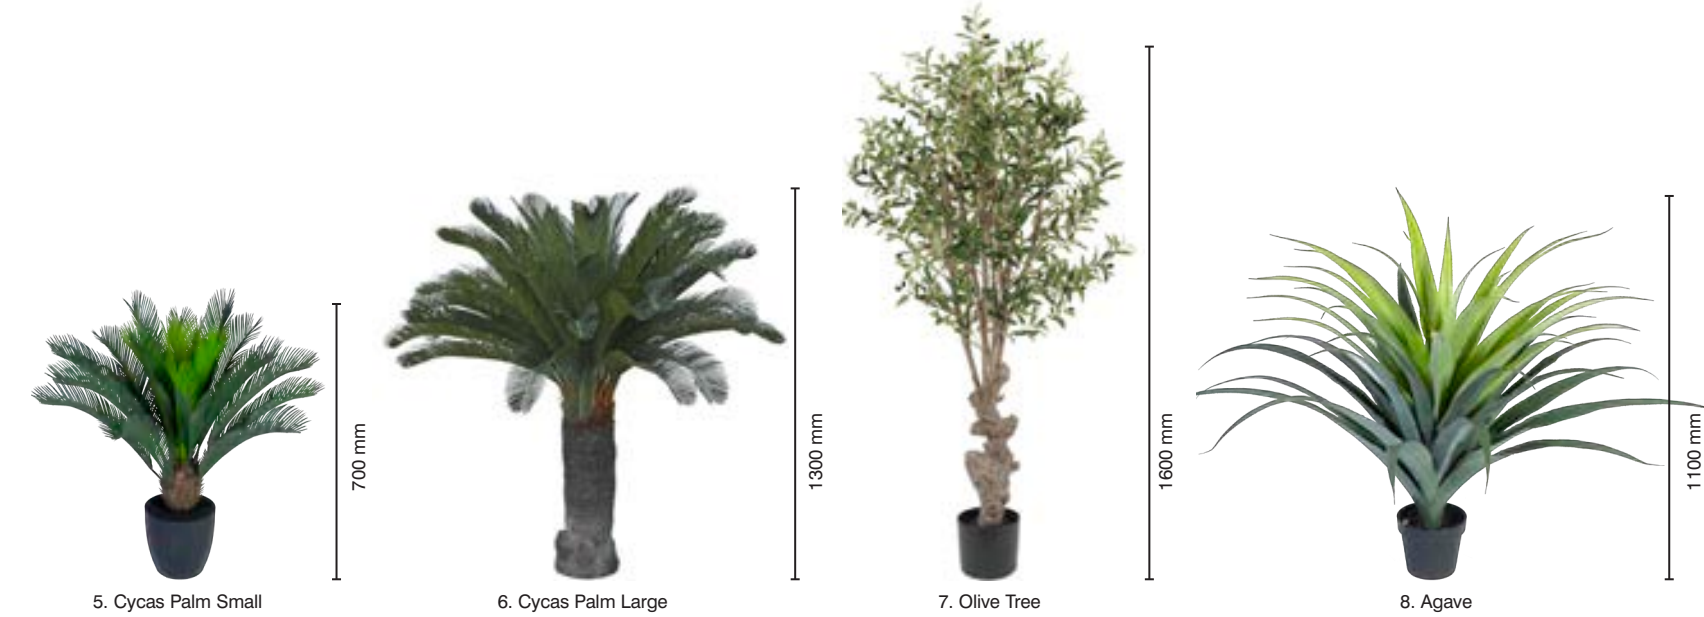

Add green details in the shape of our lifelike plants to decorate the office, hotel or conference. Natural elements create a welcoming feeling and our bigger plants act as both great interior details and perfect room dividers. The plants are just as perfect next to your desk as in an own oasis together with a group of our comfortable Office Nap, see page 92.

Note: Plant pots 25, 27, 28 and 30 are not recommended for the Areca Palm. For Cycas Palm Large pots 24, 25-30 are not recommended. This is due to their height and width. As our oil drums come from an industrial environment, the products have a certain patina. This is part of the design.

## BUILD STYLISH GREEN ENVIRONMENTS

Combine our stylish pots and oil drums with each other to set the right tone in your interior. Easily create a dynamic and modern oasis by combining sizes, nuances and shapes. Use as a room divider or to create a welcoming, furnished space.

Place the plant in a pot or oil drum and add some mulch for an extra stylish finish. Tip, fill the pot with plastic, styrofoam, etc. to place the tree higher, then cover the surface with mulch. Made of 100% mulch from trees in the needle family, fir and pine.

## OIL DRUMS FOR A RAW STYLE

Place your plants in an oil drum to add an edge to your interior design. With the lid they can conveniently be used as an extra table. **As they come from an industrial environment, they have a certain patina.** Combine with pots for a stylish mix of materials to create an oasis.

We've moved! From the February 2019 you can find us at R40 on Södermalm in Stockholm. Come by and try our products to find out how to improve acoustics, light, air and ergonomics in a stylish manner.

A person is sitting on an office chair at a desk. They are wearing a light-colored long-sleeved shirt, blue jeans, and brown shoes. Their right hand is resting on a silver laptop that is placed on a white, adjustable stand. The stand is attached to the desk. The person's left foot is pressing a black foot pedal on the floor. The background is a plain, light-colored wall.

# RECYCLING CPU / LAPTOP HOLDERS CABLE HOLDERS CABLE COLLECTORS

CPU/ laptop holders not only save space at the workstation, they are also equally practical and ergonomic. A full range of products in all shapes, sizes and budgets including anti-theft solutions.

Cable clutter, not only aesthetically a nightmare, it also increases the risk of fire. Good cable management results in better hygiene and makes cleaning office spaces more efficient.

# WE WORK TOGETHER!

## PCON PLANNER 3D-drawing & AR

You can find all of our products in *pCon Planner* and can easily use them in your drawings. We have designed a digital design tool together with pCon Planner so that you can choose the look of our products online and download images and drawings. In the application *pCon Facts* you can furnish spaces with our products in real time as the images to the right show Office Ballz. This tool helps you visualize all ideas without any limits. It makes it easy to see how our products look and work in different environments, how colour combinations work together and essentially gives you a concrete picture of the result.

bim  
object

## BIM OBJECTS Building Information Modeling

*BIM Objects* is the world's largest digital content management system for BIM-objects and plays an important role in architects' every day work. A BIM-object can be described as a digital copy of a produced product and can be used in drawing environments in the design process.

A selection of our products, such as The Hut Collection, The Rising, Peak Design Booth, The Lightning, Office Ballz, Office Nap, ZAP Monitor arm, Nivå, Honey and a mix of plants are now available as BIM-objects. Our presence means that architects and engineers all over the world have access to Gotessons' products in the early phases of designing new products.

acoustic facts

## ACOUSTIC FACTS A measuring tool for acoustics

Together with AM Acoustic, we have accumulated an understanding and knowledge about acoustics over the years. Partly through all the projects we are involved in, but also through close and frequent collaborations with acousticians and interior designers. As we develop our products and acoustic solutions, there is an, in addition to the acoustic aspect, environmental focus, form and format flexibility as well as the ability to integrate and strengthen other interior design, which are important factors for creating "A Better Looking Sound". We test all of our products according to Swedish Standard SS 25269.

# WE WORK TOGETHER!

# ELECTRICAL ACCESSORIES

Vibrant business rooms, quiet IT rooms, creative rooms, hotel rooms or conference rooms. Regardless of the environment, we offer the appropriate solution for much needed access connections or recharging. Regardless of connections and technologies, we solve your needs.

## LET'S START FROM THE BEGINNING ...

Gotessons' history plays a central role in the daily work of the company. When Ola Götesson developed the world's first cable tray to create order among cables under desks, the company idea to create functioning workplaces was born. This is why our products are constantly developed to generate sustainable work environments, focusing on sound, light, air and ergonomics. Our strength lies in having a large and adaptable product range, where we help our customers decorate sustainable, modern and stylish spaces.
