GOTESSONS

FROM WORKPLACE TO CREATIVE SPACE™ 2021

WE OPEN THE DOORS TO SOMETHING NEW & ACTUALIZE VISIONS WE HAVE

Moving Wall

Bridge. Tower. Media.
Three storage units as well
as room dividers, sound
absorbents and interior design
elements. The wheels make
them movable and thanks to
the design, cables are easily
hidden and electric outlets
mounted. There is always an
acoustic aspect; the walls
are built like our popular A30
to create a more sustainable
sound environment.

Time Out

Comfortable. Sound
absorbing. Good looking as
a solitaire piece or in a group.
It's a sofa with a roof which is a
comfortable place to wait or do the
afternoon e-mails from.

2021

Sustainability at ours

Less bad is not good enough. At Gotessons, sustainability is at the top of the agenda and an important part of decision making in all areas of the business, from drawing board to sales.

A sustainable work day for everyone. For our suppliers, employees and customers. Good material, good products and a good work environment. That is sustainability for Gotessons!

Do you want to know more? Read about Loop, Material choices, Ergonomics, Acoustics and our Digitalization in the catalogue.

If you have questions about how we work with sustainability, we'd love to have a chat!

Hang In There

Stylish. Knows how to fit in. Stable. Likes to hang out with one more. It sounds like the description of a good friend. Hang In There is a clothes rail for the entrance, office, lobby, school, you name it!

1 sustainability loop

To rethink, make something new of something old and changing habits can be difficult. But Gotessons have now taken the step forward, into the circle. At Stockholm Furniture Fair 2020, the company presented its new investment for a sustainable future – and show what it means to make a Loop.

Let us not play with words.

Like many others in the trade, Gotessons need to become better at sustainability. Climate change doesn't allow you to wait, especially if you are a part of a business that

is characterised by short-term fashion trends. It is time to take the step forward, into the circle.

Less talking, more doing

Sustainability work is ongoing at Gotessons and they are also not scared of big investments. Products are known for delivering high level functionality and quality. At the same time, Gotessons have been quite bad at talking about sustainability. Despite the company's product palette displaying many years of experience in environmental responsibility and quality design.

That the products are persistent, for example, because a lot of effort goes into choosing the right material. There is a line of reliable products that represent Gotessons interior design vision which combines functional design with a long lifespan. But it's not enough to only let the assortment speak for itself.

Reusing the office

To think circularly from drawing table to finished product, in material, design and services. To combine sustainability with quality. That is exactly how Loop works

and is only the beginning. The recycling concept Loop in fact applies to furniture, interiors or whole offices. The products Gotessons create should be used a lot and by many, but above all, over and over again. Take the desk screen A30 as an example. The screen, also known as ScreenIT, is a reusable sound absorbent that was launched in 2010. With Loop, the customers now have the possibility to send in their old desk screens, have them serviced and reupholstered to make them as good as new again.

The future is looped

Gotessons sees the future office as circular, a workplace that will be looped. Long-term solutions are what the products have

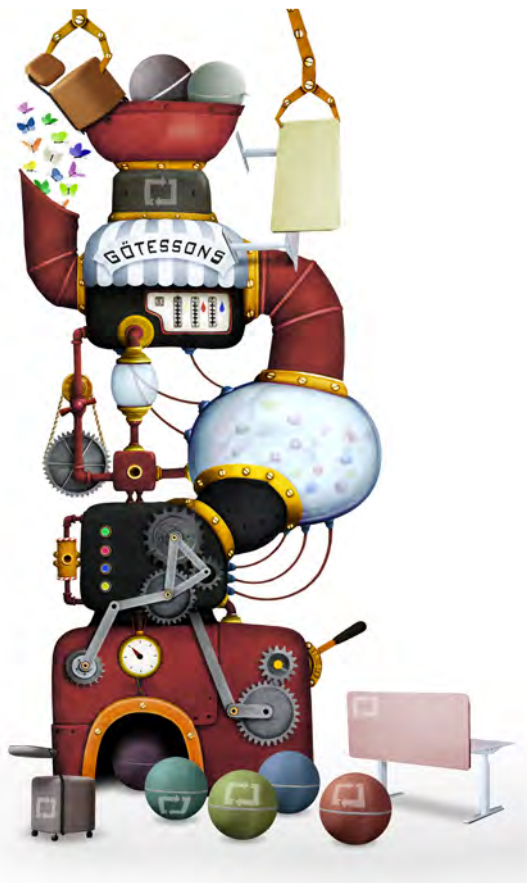

In the future, there are plans for a LOOP shop. There, looped products will be sold, products that have been used but have many years left in their life cycle.

This is just the beginning of Loop, the start of thinking circularly from drawing board to finished product. In material, in design and in services.

always stood for. The vision for a sustainable future stretches over the whole office landscape and over several generations.

"We are doing it for all our sakes. We are creating a Loop for the future."

2 sustainability material choices

The reason for our sustainability work is simple – our planet is no longer in the same shape as it once was. Even if we are a small cog in a large wheel, we want to do our part for future generations. What we have also discovered along the way is that sustainability not only contributes to a better environment, but also several social benefits for us and our interested parties. Our products' ergonomic features help the body and the acoustic solutions create a healthier and more inclusive environment for all those present there.

The environmental work today

The world is going through a consume and discard craze. Even though office furniture is not replaced as frequently as home decor, this usually happens in workplaces and furniture is often used for a much shorter time than its actual service life. A large part of our work is therefore made up of developing and finding new strategies for how our products can be used for a longer period before they are replaced. It is about looking forward and predicting what will happen in the market in the future, so that we do not just satisfy the trends that are strong right now, but also those that are expected to be popular and long-lasting. That is when it is important to look at the bigger picture of the workplace, because digital development will have as great an impact as colours and materials.

Material choices

Quality and sustainability go hand in hand. Furniture that maintain good quality and can be used for a

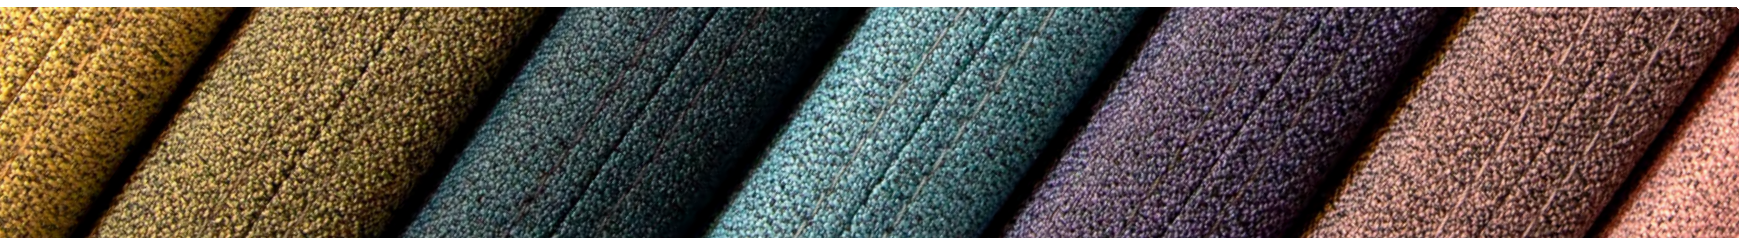

longer time without needing to be repaired or renewed is one of the best ways to decrease the product's environmental impact. Since the start, we at Gotessons have always strived for a high level of product quality. Thanks to this longterm mindset, it has given us positive effects within the sustainability field, even if it wasn't the original thought back in the day.

There are several certifications for different sustainability aspects within interior design. Our products for example contain FSC wood and several products are Nordic Swan labeled. The majority of our textiles have some kind of eco-label, such as the EU Ecolabel, Nordic Swan and OEKO-TEX Standard 100. We can also proudly offer post-consumer recycled textiles, which are made from at least 97 % recycled material. Sustainable furniture from Gotessons mean that they are office furniture that contribute to good health and well-being in the working life for the end consumer.

Supplier collaborations

When you work with sustainability, it is not enough to have control and steering over your own internal processes. It is important to take responsibility for all parts of the company's operations, and how the supply chain performs is of the utmost importance when it comes to the total environmental impact. It is about keeping track of how the products are produced, by what and by whom. The area is often complex, and we should not dwell on that.

Gotessons have, thanks to long, tight and faithful supplier collaborations, always worked towards having good insight, control and contact regarding sustainability questions, but also development and collaborations. By working with few but good suppliers, and valuing other questions than price, we can ensure that everything works as it should and that the products that reach the end customer meet our quality requirements and are delivered on time.

EcoSUND is our unique core material for sound absorbent. It's good for both the work environment and our nature. EcoSUND is made of 50 % recycled PET and 50 % new PET fibres. The fibres EcoSUND is made of is approved according to Oeko-Tex® Standard 100. No emissions EcoSUND® is completely free from glue/adhesives and therefore doesn't release any emissions or gases. No dangerous fibres EcoSUND doesn't release any fibres that itch, irritate or gives allergic reactions.

"GöteSSons offers many textiles that are either eco-labeled or made from recycled materials. We hope and want our customers to base their choices on sustainability factors to the same extent as the price."

Emma Hagman, Sustainability Coordinator

Nordic Swan Ecolabel

The Nordic Swan Ecolabel sets environment and climate demands on products and those that can be Swan labeled are judged from their whole life cycle. This means that the product's whole environmental strain is reviewed, from the use of energy, water, chemicals to waste, and more. Swan labeled furniture fulfils all environmental requirements for raw material and the requirements for Swan labeled textiles cover all phases of production.

EU Ecolabel

EU Ecolabel

EU Ecolabel is the European Union's environmental label and reviews the environmental strain (energy, water and chemicals) during a product's life cycle and ensures the quality. For textiles, this means focusing on the quantity of pesticide residues in the raw material, the scouring of the raw wool, the use and emissions of hazardous chemicals in production, and the quantity of toxic substances and heavy metals in the finished product.

Oeko-Tex

Oeko-Tex is the world's leading health label for textiles. The label certifies that the end product doesn't cause allergic problems or other health issues. Oeko-Tex® standard 100 refers to the end product and the label guarantees that no unhealthy chemicals are left in the textile.

ACOUSTIC NONWOVEN

Colour: 901
(white Acoustic Nonwoven)

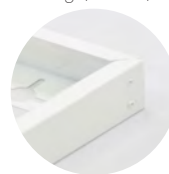

Colour: 902
(black Acoustic Nonwoven)

With its air-permeable microperforating properties, Acoustic Nonwoven reflects the sound minimally when it hits the surface so that the sound absorber can absorb maximum. The cloth provides a nice smooth surface that can withstand moisture, is odorless, does not rot or mold and does not create any allergies. Acoustic Nonwoven is also used as a barrier between insulation and air gaps, for example against glass panels on a wall in a sports hall, concert hall, music studios etc. or as a surface layer on pieces of sound absorbers and ceilings.

CREEK BY VESCOM

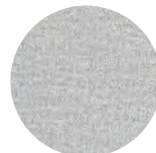

CREEK – DURABLE VINYL WITH A TEXTILE LOOK

Creek's irregular melange surface gives it a soft design that reminds one of the appearance of linen fabric as well as having all of the strong, technical qualities that are found in a vinyl. The material can be disinfected with alcohol based cleaner, which makes the products excellent choices in the healthcare sector as well as for different school and education environments.

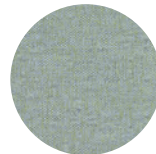

Creek can only be chosen on the article numbers on this page as well as ScreenIT Health & Care that can be found in the chapter Floor Screens.

858200-3 W. 2000	silver	121.49

Halfpipe adjustable with keyhole for desk screen

Not suitable for ScreenIT A30 P1, A30K, AT40, Standard in W:1200 mm.

770100 L.1000-1800 W. 170 D. 80	silver	74.68
770100-1 L.1000-1800 W. 170 D. 80	white	74.68

For quick and easy mounting of the Halfpipe, select rail package with key holes mount and adjustable Halfpipe keyhole. Can also be mounted directly on any ScreenIT range with mount 642065. See page 18.

The screen can be used as a desk, floor and wall screen. This screen is without holes and can be ordered with height adjustable mounting brackets. The screen can then easily be moved up and down with an Allen key. See video on www.gotessons.com.

SCREENIT A30 FLEXIBLE

Facts: Screen height H:430 mm from desk top with desk mount if desk is 20 mm thick. Max load with desk mount 25 kg. Total thickness 40 mm.
Measurements inner cable channel: 60x30 mm.

Order procedure desk screen, see page 21.

Desk mount set for desk screen A10
To be mounted with screws under the desk, 4 pcs in one pack.
643050-1 white -2 black -3 silver 89.04/4 pcs

Angle bracket for desk screen, ScreenIT Standard/A30/A40
Used for corner mounting to hold the screens together. 1pc mount incl.
642034-1 white -2 black -3 silver 11.38

Feel free to supplement with the cable holders to get all the cables around the desk in order.
See the cable holders in the chapter Cable holder.

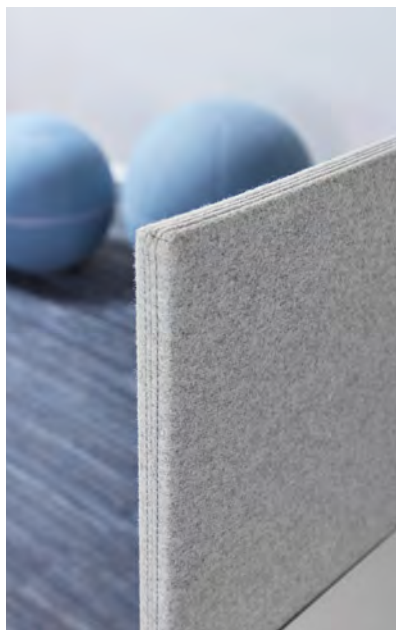

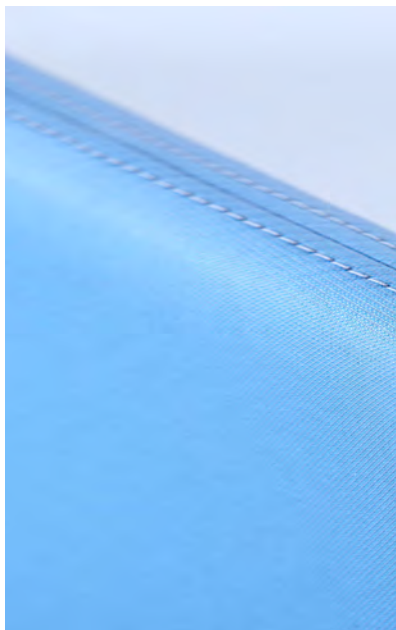

ScreenIT A30 with built in Toolbar rail and integrated built in cable channel with exit under the desk. List available in silver only. See video at www.gotessons.com.

A40 is constructed with a wooden frame filled with 40 mm sound absorbing materials and foam laminated textile for a good sound absorption. Choose from a variety of textiles and combine with seam or zipper. Total thickness 50 mm. Max load 6 kg.

Tip! Colour match screen and stool. See chapter Soft Seating/Storage.

A40 WITH STRAIGHT CORNERS

A40 is available with straighter design on the corners. Start the article number with 50 instead of 10 when ordering. Ex. 5043160 is a desk screen with width 1600 mm and straight corners. A40 Reinforced is not available with straight corners.

The desk version of our popular Peak Design Booth – slightly slanted side screens are combined with a straight front screen in order to create a dynamic pattern by your work space. Choose between height 650 mm or 800 mm and four different widths to suit your spaces. Play around with different coloured booths or use one tone to create a room divider in your environments.

TOOLBAR RAILS AND ACCESSORIES

Toolbars enable you to create a practical and efficient workstation. All accessories are within easy reach placed on a suspended third level, keeping the desk surface clear and usable.

FREEWALL DOUBLE TRACK

The toolbar that suits all accessories. It has a double profile concealing the attachment screws. Recommended mounting height: 310 mm above desk to top of the Freewall.

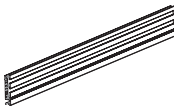

FREEWALL

The toolbar can be screwed on a desk screen or to a wall. All accessories on pages 42-44 are suitable for the Freewall, Linjé 4Way and most other two line rails. Recommended mounting height: 310 mm above desk to top of the Freewall. The Freewall toolbar can also be fixed directly on the wall or other solid vertical surfaces.

FREEWALL

Freewall double track
Suitable for ScreenIT Standard, A30/A40 Reinforced and wallmount
Extruded aluminium rail, 2 end covers and screws included.

COMPARE SCREENS

PAGE SCREEN

25

SCREENIT A30 FLEXIBLE

As ScreenIT A30 without holes. Can be used as a desk or floor screen or wall mounted.

48

SCREENIT A30 FLOOR SCREEN

Wooden frame filled with sound absorbing anti-allergy foam and lined with foam laminated textile. Total thickness 40 mm.

48

SCREENIT A30 FLOOR SCREEN WITH PLEXI

ScreenIT A30 with a plexi screen on the top.

49

SCREENIT A30/A40 FLOOR SCREEN WITH STRAIGHT CORNER

Wooden frame filled with sound absorbing anti-allergy foam and lined with foam laminated textile. Straight corner. Thickness A40 50 mm.

50-51

THE RISING

A patented floor screen that you can raise and lower freely to the desired height. The screen is a ScreenIT A30.

52-54

SCREENIT A30 FLOOR SCREEN BOOTH BUILDABLE

The floor screens are zipped together to form a booth on adjustable feet. Material like ScreenIT A30.

53

SCREENIT HEALTH & CARE

Built with a wood frame with 30 mm core material and dressed in vinyl that can easily be disinfected and wiped with alcohol based cleaner. Can be connected with press studs.

55

SCREENIT A30 TOWER BOOTH

The screens in the Tower Booth have double half zips therefore additional screens can be added on at a later date to create multiple attached workstations.

56-57

A30 PEAK DESIGN BOOTH

Sound absorbing booth solution with a slight tilted side screen to create dynamics and openness. The booth is coupled with zipper and can therefore be built in infinity. Total thickness 40 mm.

Read more and compare our desk screens and desk screen booths in the Desk Screen Chapter.

FLOOR SCREENS AND FLOOR SCREEN BOOTHS

In today's open office landscapes, floor screens can make the difference needed for the working climate. Screens that create rooms within the room, screens that take care of noise and buzz from office machines, writing on keyboards and talking colleagues. Everything from flexible screens to room dividers and booths can be found on these pages.

ORDER PROCEDURE

FLOOR SCREEN

1. SELECT SCREEN AND SCREEN SIZE

2. SELECT TEXTILE COLOUR

See colour map at page 8-15.

(Contact us for other textiles, colours and sizes.

An extra cost of 56.00€ will be charged per change)

3. SELECT ZIP OR SEAM COLOUR

See colours on page 15.

4. SELECT CLAMPS OR MOUNTS

See page 18-19.

Specify the article number as follows: Desk screen size - textile colour - zip/seam colour. Example: 644140 - 01 - 101

Colour code within the parenthesis is the textile producer's own colour code, is not used for orders.

FLOOR SCREEN BOOTHS

1. SELECT SCREEN AND SCREEN SIZE

2. SELECT TEXTILE COLOUR See colour map at page 8-15. (Contact us for other textiles, colours and sizes. An extra cost of 56.00€ will be charged per change)

3. SELECT SEAM COLOUR See colours on page 15.

4. SELECT ZIP TO CONNECT SCREENS See page 15.

5. SELECT CLAMPS OR MOUNTS See page 18-19.

Specify the article number as follows: Screen booth - textile colour - seam colour - zip colour. Example: 1178160 - 14 - 206 - 101
Colour code within the parenthesis is the textile producer's own colour code, is not used for orders.

Below screens and textiles are Nordic Eco labelled in combination with each other.

With a double zip on both sides the booth can be increased in length as depicted. Pricelist height is 1400 mm and side screens' width is 900 mm.
For other sizes, please contact Gotessons.

ScreenIT Health & Care is a floor screen that has been designed for the health care sector. It is built with a wood frame, filled with 30 mm soft core material and dressed in vinyl, which is easy to disinfect and wipe clean with alcohol based cleaner. The screen's long sides are both equipped with press studs to enable connecting as many screens as you want. Choose wheels or foot set for the screen for mobility and storage. Thanks to the air gap between the bottom of the screen and the floor, cleaning under and around the screen is made easier. Usable in spaces such as: waiting rooms, corridors, schools, lunch rooms and the health and care sectors in general.

and Remix 3 will be with a decor seam.

Peak Design Booth is a booth solution with a slight tilted side screen to create dynamics and openness. The booth is coupled with zipper and can therefore be built in infinity. The height is as standard 1400 mm and the side screens have two different depths either 850 mm or 1200 mm. Select screens in the same textile or in a color scale as below to create unique workplaces. Keep clean and tidy around and under the desk by choosing a recessed cable grommet in the screens.

The A30 Peak Design Booth is a flexible booth solution where you can add on in infinity. Build your own version with the number of front and side screens you desire.
If you need help to order please contact Götessons. For more solutions see www.gotessons.com.

Tip! See accessories to hang on the screen in the Toolbar chapter.

3 sustainability acoustics

THE WAY TO GREAT ACOUSTICS

A healthy workplace has measurable effects. Reduced stress, decreased irritation and sick leave as well as a higher performance rate are a few of the most common positive results. Today, we have a society and a way of living and working that creates more sound and noise around us.

Hard surfaces

Open floor plans and environments with hard materials such as large glass surfaces, concrete and brick are interior trends that challenge us to create great acoustics. Thankfully, we're becoming more aware about the importance of a good sound environment and the connection it has to our wellbeing.

Social sustainability

Good acoustic conditions have very much to do with social sustainability and counteracting alienation; people who due to different reasons have hearing or concentration problems should be able to reside and work on the same conditions as their colleagues.

Product development

Beyond the acoustic aspect, we focus on the environment and sustainability when we develop our products. Our sound absorbents are made from our unique sound absorbing core material EcoSUND; it is made from 50 % recycled PET fibers. Flexibility in form and size and the possibility to integrate and improve other interior elements are

also important factors in creating a better looking sound.

Tests

We test all of our products in accordance with ISO Standard SS 25269.

Acoustic Facts is a measuring tool for acoustics where our absorbents are measured and evaluated for you to feel safe in your choices.

"Sound is fantastic! Sound informs, influences and creates feelings all the time and our hearing is constantly on." says Acoustic advisor Magnus Rask

The ceiling - the forgotten surface

The ceiling is the first and many times the most important surface fix. It is common to use a full suspended ceiling; here it is important that the absorbing panels are at least 40 mm thick. If there is no suspended ceiling, easily add loose absorbents for the same absorption effect.

- Are the panels in the ceiling thinner than 40 mm? Add thicker in the existing grid.
- Reinforce the ceiling with vertical hanging absorbents.
- Is there no ceiling absorption, add loose modules.

Example of products: In the Grid, Nivå Ceiling, Effekt, Sound Off and Off the Grid.

The walls - big impact

Hard surfaces reflect and reinforce sound levels. Hard surfaces contribute to sound being heard from long distances. Wall absorbents decrease reverberation in the room, which creates a softer and more pleasant sound environment.

- Use absorbents on one long side and one short side in the room.
- Use at least 40 mm thick absorbents.

Example of products: Sound Off, Nivå, Honey, Woodstock, Collage and Print.

Screens = possibilities

To decrease noise between different work stations and zones you can use desk and floor screens, pendent screening, plants, room within the room solutions or sofas with higher back rests and integrated absorption. This creates protected zones and privacy in open spaces.

- For absorption, use screens with at least 40 mm absorbing material.
- Screens with a hard core is used for sound dampening and screening off visual disturbance.
- Choose room within a room solutions and furniture that also contributes to sound absorption in the room.
- Plants can be used to both screen off and break the noise, which creates a softer sound environment.

Example of products: Desk and floor screens A30/A40, The Hut Collection, Effekt, Lod, plants and Moving Wall Media.

ROOM WITHIN A ROOM

Creating natural meeting places in large open spaces that today's offices often are made of, is one of the strengths with the room-within-a-room concept. Our popular The Hut Collection contributes with a dynamic feeling and an eye-catching detail, all while the screened off spaces generate creative condition and improve acoustics for everyone. Create fun combinations with the components from The Hut Lounge Collection, made up of relaxed and stylish pieces.

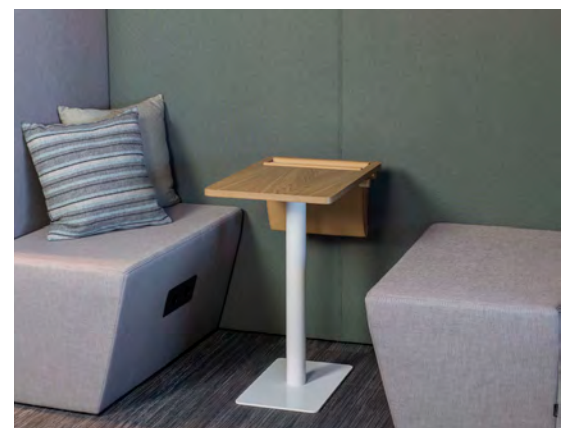

THE HUT COLLECTION

The house's simple and straight lines are inspired by the classic game of Monopoly and its game pieces that give a timeless shape to the popular and practical "room-in-room" concept. The house can be used for several purposes; as an individual workstation, a small sit-and-stand meeting room or as relax areas combined with The Hut Sofa. Combine The Hut with the stylish and functional plexi door to provide the personal space needed for private telephone meetings or work tasks. This makes The Hut even more personal and decreases the sound from outside and absorbs it within the house. Designed by Workspace Finland and manufactured by Gotessons. Contact us for details of The Hut Sofa and other Hut extras.

THE HUT LOUNGE

Take your meetings to the lounge and converse in a relaxed environment. The Hut Lounge Collection offers convenient and comfortable spaces that suit many purposes. Combine The Hut Lounge with two benches and create an area for brainstorming, relaxed work or a place for a short nap. Think outside the box and use pieces freely and in fun constellations. Mix and match the Free Bench with the Square Bench in an open zone or create an entire lounge area with different sized Huts and benches – whatever suits you. Thanks to the wheels attached to all of the Benches, everything can be moved with ease.

FREE BENCH AND SQUARE BENCH

Bench – the key object in three formats as a part of The Hut Lounge collection. Place a Free Bench in the entrance fitted with Table Top to meet every visitor's wish. Combine the Square Bench with any constellation to create dynamic and add an extra nice design detail.

SQUARE BENCH

Price €

Square Bench is always fitted with wheels. Can be used as free standing or connected to other Benches. See price ranges on page 8-15.

THE CABIN

In the Cabin, you can find the screened off and sound dampening feeling of a cabin in the woods. The walls are built with several panels, made of a wooden frame with 50 mm sound absorbents inside, dressed with foam laminated textile to create the optimum sound environment. With our adjustable feet, uneven floors can be compensated for.

The house has no roof, but with the high walls, the ceiling in the room can be used in different ways instead. Combine with ceiling absorbent Nivå or why not suspend Sound Off with lamps from the ceiling for a two-in-one solution? The house is available in two sizes and the entrance consists of a glass door that smoothly slides into the wall on opening and is easily closed by its stainless steel handle.

TIME OUT

Time Out is a modern sound absorbing sofa with a roof built with A30 screens. Choose with or without electric sockets to create relaxed work spaces or a comfortable place to charge your phone in the lobby. The sofa works excellent as a solitary piece or in a group. Two Time Out placed opposite each other creates a nice and airy room in the room. Great to combine with Backrest and Pocket Table for a complete solution.

WHITEBOARDS, NOTICE BOARDS, WRITING BOARDS

Stylish and practical writing and notice boards are a must for all creative meetings. We have a variety of solutions to offer, both those that are independent on wheels, those hung over screens or in our houses from The Hut Collection. Our notice boards are of good sound absorption where you can attach pictures and documents with needles, magnets or metal lists.

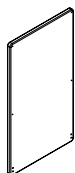

SKETCH WRITING BOARD FLOOR SCREEN

Stylish and practical writing board on wheels. The glass surface is made of hardened safety glass with magnetic surface, making it easy to attach both paper and write directly to the board. The board has four rotary and lockable wheels that allow you to switch quickly from whiteboard page to a sound-absorbing bulletin board, which conveniently attaches images and documents with needles.

WALL AND CEILING ACOUSTICS

A good sound environment has a direct connection to our wellbeing. We have sound absorbents that are designed to be mounted on the wall and ceiling and suit all types of environments. Our absorbents are made of EcoSUND, a unique sound absorbing core material that we have produced together with acousticians for optimal sound absorption. EcoSUND is available in several colours and our products can be chosen in their raw material, be dressed in textile, printed on, cut into different shapes and customised to suit your needs.

ROOM DIVIDERS

Several of our ceiling mounted absorbents also work as excellent room dividers. They can be mounted on rails or directly in the grid to create rooms within the room, absorb sound and at the same time improve the decor with their colour and shape. To create zones with sound absorbents is a 2-in-1 solution where the sound landscape becomes softer and the visual distractions decrease.

HONEY ECOSUND® WALL PANEL

Honey is a playful and modular wall panel that can be varied to form different patterns in different colours, with or without textile. Honey is available in three thicknesses: 20 mm, 40 mm and 50 mm. All panels have good sound absorbing properties. Honey is manufactured with a straight edge and comes with velour backing for easy mounting with Velcro. The sound absorbent is made from our unique core material EcoSUND. Our core material is available in four colours and with the ability to dress textiles in several colours your wall becomes almost unique.

Colour code core material: white-1 black-2 grey-3 bronze brown-4

WOODSTOCK ECOSUND®

Bring nature inside, literally. The circles are made with the environmentally friendly and sound absorbing material EcoSUND and are then printed with different images of trees' age rings. Combine the twelve circles in the order you find most harmonious and enjoy how good looking good acoustics can be. Perfect for settings like offices, conferences and hotels. Why not buy several packets and fill an entire wall?

Woodstock EcoSUND			Price €
<i>The circles edges will be raw in white, black, grey or bronze brown.</i>			
121212-1		white	824.15
121212-2		black	824.15

121212-4		bronze brown	824.15

Each packet includes 12 circles: 4 x Ø250x50 mm 4 x Ø300x40 mm 4 x Ø350x20 mm

To create a dynamic pattern, each size group is printed with a different image.

Facts: Wallmount with velcro included. The edge will be raw.

Colour code core material: white-1 black-2 grey-3 bronze brown-4

NIVÅ ECOSUND® WALL PANEL

Nivå improves acoustics and its design makes it a feature in any room. The panels can be varied to form different patterns in different colours, with or without textile. Nivå is made of our unique core material EcoSUND. Our core material is available in four colours, and with the possibility of dressing with several different textiles, your wall becomes almost unique. The thickness of the absorber varies over the surface from 30-90 mm in the cut rectangular and square patterns.

3D ECOSUND®

Get text, logotypes or other shapes in figure cut EcoSUND - we call it 3D! Let your imagination fly free and allow your very own shape bet created in our unique sound absorbing material and create a cool expression on the wall. 3D is delivered with an unlaminated warmed smooth surface (white, grey, black or bronze brown raw EcoSUND), or with a surface in textiles Acoustic Nonwoven or Hush. The edge will be raw. Choose freely in sizes up to 1500x3000 mm per shape.

3D EcoSUND	
121260-	Contact us for price

ORDER 3D
Deliver your figure/image in a dimension specified Illustrator format or 2D CAD type DXF or DWG. If you leave them as an image, PDF or non-CAD compatible file format a set cost will be charged. The dimension is based on your figure's outer format + 100 mm margin. The minimum order is one square metre.

Big Print is more than an acoustic solution for your environment, it is an acoustic element that sets the tone in the whole room. In any measurements up to 3 x 50 m, Big Print can be delivered in one piece without a splice. For bigger measurements, the print is made on several canvases. Use your own or a bought illustration/photo to suit your interior. Big Print can be ordered in large as well as small formats with the benefit that a new printed canvas is all you need to order if you in the future want to change the image. The aluminium frame and EcoSUND absorbents remain in place.

BIG PRINT ECOSUND®

Mounting: Big Print is delivered in parts. The aluminum profiles that make up the frame are mounted in straight angles on the wall and sound absorbents are attached with velcro directly onto the underlying wall. Wrap the printed canvas over the absorbent and insert the attached rubber strip into the groove of the aluminum profile to hold the canvas in place.

Sound absorbing art is an easy way to create a personal atmosphere and at the same time improve the sound environment. With Print, you have the possibility to set the mood in the room with one or more pieces. Choose pictures from our image bank or send in your own picture. Gotessons can also help you buy images from an image agency, contact us for a quote. Print is made of EcoSUND, a sound absorbent made of 50 % recycled PET and 50 % new PET fibres. Print is available with a visible white/black frame or with a straight cut edge with visible sides.

EFFEKT ECOSUND® CEILING/WALL

Fix the acoustics with smart sound absorbent Effekt EcoSUND Ceiling/Wall with clamps. Like our other sound absorbents, these panels are made from our unique sound absorbing core material EcoSUND. For a discrete sound absorbing system in the ceiling or on the wall, two clamps per panel is mounted, the panel is slid inside the clamps and improves the sound environment immediately. Choose Effekt Ceiling/Wall in raw EcoSUND in colour white, black, grey or bronze brown. To match the rest of your interior, dress the panels in textile Hush, see colours on page 10+16.

342400	2120 mm (for print/absorbent 2400 mm)	20.85
--------	---------------------------------------	-------

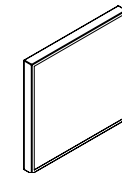

Important info: Tell-Us can only be ordered in Hush textile. See textiles and core material on page 10+16. The edge will be raw. For orders of W. 2400 mm, minimum quantity: 5 pcs.

Colour code core material: white-1 black-2 grey-3 bronze brown-4

Tell-Us improves the acoustics and enhances the interior design with its 3D effect. The sound absorbent is made of our unique core material EcoSUND. Tell-Us is as standard available with a black or a white frame and can be ordered with textile Hush. The textile is selected for its ability to allow the sound pass through to the acoustic panel to achieve maximum sound absorption.

Collage is a two-in-one solution combining good acoustics with a practical notice board. Collage is manufactured in six standard formats. All absorbents are 50 mm thick for good sound absorption and made of our unique core material EcoSUND. Choose colour from textiles Hush or Blazer Lite to match the rest of your furniture.

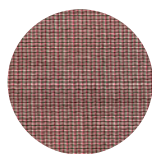

Improve the sound environment with Tiles Nova EcoSUND dressed in stylish textile Nova. Choose between six different colour combinations: we have chosen three unique colours for white EcoSUND and three unique colours for black EcoSUND for a harmonic result. Create patterns on the often forgotten area above your head with a 6-pack Tiles and easily continue with more packs or solo Tiles.

Can only be used in grids or together with In The Grid. Colour combinations are predetermined for this product. Textile Nova can only be used with this product.

Add a personal touch to the ceiling with Tiles EcoSUND. EcoSUND is a unique core material made of 50% recycled polyester which dampens sound that bounces in a room. Tiles are available in raw EcoSUND in colours - white, black, grey or bronze brown, or dressed in textile Hush. Create patterns on the often forgotten area above your head with a 6-pack Tiles and easily continue with more packs or solo Tiles. Choose Tiles with a combined lamp for a smart 2-in-1 solution of acoustics and lighting.

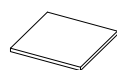

Tiles moss is an effective and beautiful sound absorbent made of handpicked, Scandinavian moss from Nordgröna. The moss is mounted in a discreet frame that is mounted directly in the ceiling grid or together with one of the In The Grid models.

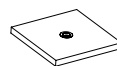

Wall moss nature is a wall absorbent that consists of a metal grid with a nature inspired pattern, filled with a 30 mm thick sound absorbing moss. The moss's sound absorbing qualities and deep green colour contributes to a softer sound landscape and a calmer visual impression.

IN THE GRID NATURE

In The Grid nature är another version of the popular decorative metal grid that is mounted directly in the ceiling grid. It can be combined with already existing ceiling panels or with Götessons Tiles for good sound absorption: moss, Nova, raw or dressed. Create a fun pattern on the ceiling or build zones over work stations - the possibilities are many!

In The Grid nature

Mounted directly in T-24 grids. Can not be combined with Tiles with lamp.

Price €

644070-20	W. 595	L. 595	H. 10	brass	95.21
644070-3	W. 595	L. 595	H. 10	silver	89.89

NATURE

"Did you know that green environments make you less stressed and more creative? Research shows that contact with nature is a crucial ingredient to live a healthier and more sustainable life. Today, we spend 90 percent of our time indoors and the environments we are in affect us both psychologically and physiologically. Therefore, bringing nature inside can have great benefits. Natural material and nature's fractals are examples of what inspired the design of "Nature". It gives the brain a perfect dose of both stimulus and rest and can activate the body's inner pharmacy. Studies show that design that reminds you of nature can have both positive restorative and health beneficial effects and also make us more creative. Green elements in combination with a good sound environment contributes to a healthier and a more sustainable life" - Isabelle Sjövall, Neurodesigner

IN THE GRID

In The Grid is a decorative wire frame in silver or brass, mounted straight into the ceiling grid, adding a luxurious touch to the room. Available in two sizes and can be combined with one or two Tiles for sound absorption. To match the rest of the interior, Tiles in all its variations can be used in In The Grid: Tiles Nova EcoSUND, Tiles dressed in Hush or Tiles in raw EcoSUND. Tiles moss,

IN THE GRID

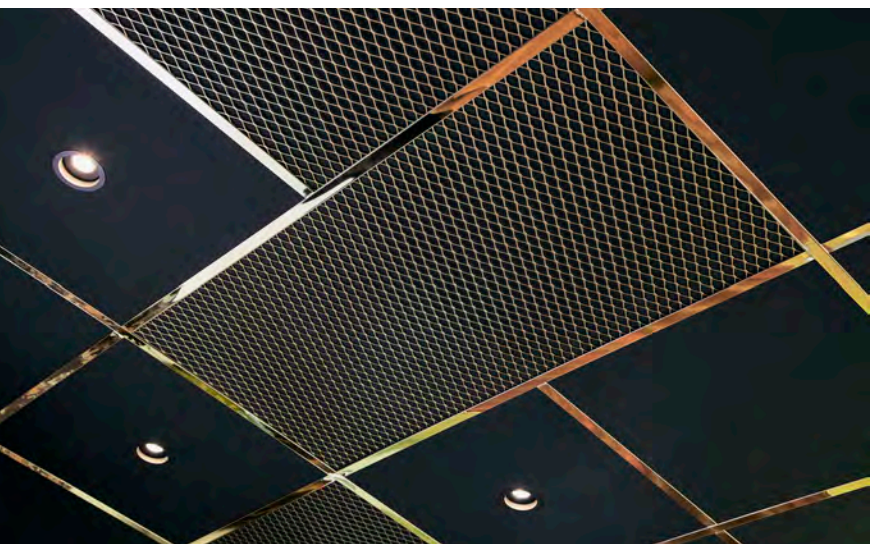

Available in two sizes and in colours silver and brass.

Combine with Tiles.

Price €

644010-3	W. 595	H. 595	D. 4	silver	65.85
644010-20	W. 595	H. 595	D. 4	brass	66.91
644020-3	W. 1195	H. 595	D. 4	silver	103.72
644020-20	W. 1195	H. 595	D. 4	brass	105.85

Important info: Mounted straight in a T-24 grid.

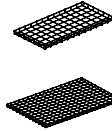

OFF THE GRID

Add an eye-catching detail in the room and suspend Off the Grid from the ceiling. Place Tiles EcoSUND in the metal frame for a sound dampening effect and combine with lamps and garlands from our wide assortment of lighting and artificial plants. The wire frame is made of 5 mm thick steel and is available in silver and brass and in two sizes.

Off the Grid

Off The Grid is only the metal frame with wires for suspension, 4 pcs included, 2 m long. With space for:
2 x Tiles Raw/Dressed EcoSUND to art.no 644030-
6 x TilesRaw/Dressed EcoSUND to art.no 644040-
Tiles, plants and lamps are bought separately.

					Price €
644030-3	W. 1200	H. 600	D. 50	silver	159.36
644030-20	W. 1200	H. 600	D. 50	brass	166.81
644040-3	W. 1800	H. 1200	D. 50	silver	248.72
644040-20	W. 1800	H. 1200	D. 50	brass	261.49

Important info: Can be mounted in any ceiling. Clips are needed for mounting in acoustic ceiling, are not included. Plants Grapevine garland and Fern garland are not recommended with Off The Grid at the same time as Tiles because the leaves push up the absorbents. Tiles with lighting are not recommended for Off the Grid.

Choose Tiles Raw EcoSUND in white, black, grey or bronze brown or dressed in Hush. See colours on page 10+16.

Mount for ceiling rail

When mounting in ceiling rail. See drawings at www.gotessons.com

Improve the acoustics in the room with ceiling mounted and sound absorbing Sound Off Cloud. The cloud shaped sound absorbers are made of our unique core material EcoSUND and can be chosen in its raw state in different colours or dressed in colours from textile Hush. Create a dynamic impression by hanging the cloud at different wire lengths. For a 2-in-1 solution of sound absorption and lighting, choose the version with one or three LED lamps.

NIVÅ ECOSUND® CEILING PANEL

Nivå improves acoustics and its design makes it a feature in any room. The panels can be varied to form different patterns in different colours, with or without textile. Nivå is made of our unique core material EcoSUND. Our core material is available in four colours, and with the possibility of laminating with several different textiles, your ceiling becomes almost unique. Nivå is manufactured in dimensions of 593x593 mm in two versions, one to work as a wall panel sound absorbent, the other to fit grid systems for ceilings. Thickness varies across the surface from 30–90 mm.

Facts: Nivå dressed can only be ordered in Hush textile. See textiles and core material on page 10+16.

Colour code core material: white-1 black-2 grey-3 bronze brown-4

An effective way to improve the acoustics of a room without having to change existing installations such as ventilation, cables, lights, etc. is to mount Effekt Pendant ceiling absorbers. With even distribution based on the needs of the local area, it becomes an affordable solution that reduces noise reflexes and sound propagation in the room. Customize your absorbers by choosing from four core materials and laminate them with the Hush textile, available in several different colours.

Colour code core material: white-1 black-2 grey-3 bronze brown-4

Effekt is made in three standard sizes and has a thickness of 50 mm for good sound absorption. Effekt is hung in hang wires that are connected and form a wall. An affordable solution that reduces noise reflexes and sound propagation in the room and divides the room in smaller rooms. Design your unique room divider by choosing from four different colours of EcoSUND, six different hang wires, and a variety of colours from the Hush textile. Effekt is not recommended for climbing.

Make the absorber personal, choose your own image. Image suggestions are available at www.gotessons.com or search on internet-based image banks.

VERTIKAL ECOSUND®

Vertikal is an acoustic lamella blind, perfect for most types of spaces and is especially useful to absorb sound that bounces against hard surfaces and large glass areas. The lamellas are made of our unique sound absorbing core material EcoSUND in white, grey or black. Standard lamella width is 127 mm and height 4000 mm and maximum rail length is 3000 mm. Vertikal is easily adjusted in different positions and can be pushed aside if you wish and is therefore suitable wherever you wish to regulate reverberation. The absorber can be dressed on one or two sides. See colours from textiles Opaq and Opaq Colour on this page.

Wall mounts
Standard ceiling mounts

LOD ECOSUND®

Lod is an acoustic lamina bar made of our unique core material EcoSUND in white, grey or black that is visible on the sides. The bars are always laminated on the front and back - choose among the colours from Opaq and Opaq Colour on this page. Because Lod is hung, it can replace curtains or be used to screen off zones in a room. The Lod bars are 50x50 mm with an air gap of 40 mm. The rail is W: 45 mm and H: 25 mm. Maximum rail length is 3000 mm. Maximum bar length: 3000 mm. Lod is always bespoke to suit your environment's needs and is adjusted after the rail and bars' length.

Lod EcoSUND

Mounting: Mount the rail to the ceiling or wall with the selected mounts. The bars are then hung in the hangers on the rail's bottom. At the bottom of the bars, attach the stabilising plate to the bottom of the bars.

121230-

Contact us for price

ORDER LOD

1. Specify length of the rail in mm
2. Select the type of mounts (standard, T-24, distance or wall mounted)

STORAGE

Create order with smart storage units with sound absorbing qualities. Thanks to smart design such as cable management, room for a TV, writing board and electric sockets, the needs are met for many types of spaces. Create zones and rooms within the room, move around thanks to the mounted wheels or build a meeting point with the storage at its center. Creative spaces see the possibilities!

SOFT SEATING

Soft seating stools at the office that act as an extra seat for visitors and used for private storage. Comfortable sofas with high backrests creating sheltered privacy, a place to meet or retreat. Soft lounge furniture for a short nap to quickly get some new energy for the next meeting. Seating for all kind of environments where you can design and build your own creative space.

MOVING WALL TOWER

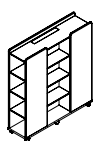

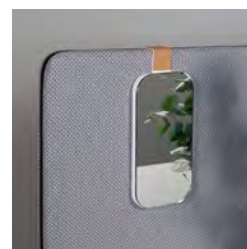

Moving Wall Tower is the tallest of the three versions and built with A30 screens for good noise absorption. The furniture is easily moved thanks to its braking and lockable wheels. Tower has shelves in an ash look on both short sides and in the middle of one long side - excellent for storage and design. On the top shelf in each end there is a cable grommet to draw cables inside the furniture, these can be exchanged for Power Grommet for easy access to electricity. There is an opening with a lid on top for access inside Tower. Tower, Bridge and Media are great in combination with each other.

Look

Only fits ScreenIT A30 screens. Lacquer and MDF are always white. Leather is always light beige.

MOVING WALL BRIDGE

Bridge is one of three models in the series Moving Wall. It's a room divider on braking and lockable wheels with shelves with an ash look on both short sides for stylish storage. The furniture is built with A30 screens and therefore is an excellent sound absorbent. On the top, 2 pcs cable grommets are mounted for cables to be easily drawn inside the furniture. If needed, Power Grommet can be mounted in the holes instead.

--------	---------------	--------

MOVING WALL MEDIA

Media is one out of three room dividers and storage units in the Moving Wall series. It has shelves on the short sides and in two sections on the front, hidden behind sliding doors with a lock. The shelves and doors surface have an ash look. The front it also prepared for mounting a TV and the back for a Sketch Writing board, see Sketch in the Whiteboard chapter. Built with A30 screens, Media is also a great sound absorbent and a flexible interior element thanks to its braking and lockable wheels. 2 pcs cable grommets are mounted on top and 1 pc in the center where the TV is mounted in order for cables to easily be hidden.

Moving Wall Media

Hidden centered OSB board 871x880 mm to hang TV screen.

Max width TV: 65".

Max weight TV: 35 kg

iQseat - Colour of textile (seam as textile colour).

Flexible, comfortable, playful and stylish - a few words that describe iQseat. Lean back on this soft seat with a backrest or turn the backrest into a table when writing down your ideas. iQseats multi-functionality with wheels makes it suitable in many different spaces. Choose between white or black details - the table, wheels and pipe follow that colour choice. The design duo Henrik Kjellberg and Jon Lindström from o4i Design Studio have designed iQseat, which Götessons has realized and produced.

See video at www.gotessons.com.

A fun and great seating furniture for the office that strengthens muscle groups in your back and legs and keep them active while you work. The Office Ballz is available in two sizes in a large variation of textile and zippers so it is easy to match it with other furnishings in the office. You regulate the inner ball easily with the included pump and the bottom is reinforced which makes it stable.

Office Ballz Medley is always unique thanks to the textile cover produced by left over fabric from our standard range soft seating textiles: Synergy, Remix, Blazer, Noble Lux, Slope, Mica, Event Screen, Lido, Bond and Rivet. The textile cover is available in four colour themes and is made of these textiles. Medley is built up by an inflatable pilates ball inside, textile cover and a metal plate in the bottom for stability and ergonomic benefits when used. The handle and leather protecting the metal plate are also made of left over material.

OFFICE BALLZ MEDLEY

Office Ballz Medley

The leather details are always black. The zip is always silver.

4 sustainability ergonomics

“Order and structure are fundamental for a harmonious environment – a clean desk is a great start.”

With today's development in the office environment, we are looking at more open landscapes and activity-based work areas. This means a new, creative way of working, but it can bring certain workplace health risks. For example, increased noise levels and less focus on the individual place's ergonomics, lighting and structure.

Clean desk

Order and structure is fundamental for a harmonious environment – a clean desk is a great start.

- Keep the work station clear from cables and free the surface to create space and order.

Acoustics

Open spaces and more people in motion also places high demands on acoustics for a sustainable environment. Using sound absorbents is an easy and effective way to improve the sound environment:

- in screens
- on walls
- on ceiling.

Ergonomics

When talking about social sustainability, well-being at work and ergonomics needs to be mentioned. This can mean:

- switching between standing up or sitting on a pilates ball by the desk.

- Adjusting the height of the desk and screen to prevent neck and shoulder pain.

Lighting

Having good and different types of lighting in a work place is a must. Examples of lighting are:

- have even general lighting
- have some lighting that can be directed to avoid reflections, the possibility to adjust light strength individually.

Try these things to carry out work in a pleasant way!

"It is important to have an even general lighting and some lighting that can be directed to avoid reflections, as well as adjusting the light strength individually. This helps to carry out work in a pleasant way."

ERGONOMIC PRODUCTS, MATS AND FLOOR PROTECTION

Protect everything from top to bottom!
Ergonomical products, smart foot and wrist support that make sure you are in the right position when you work. A variety of types of removable carpets and floor coverings to prevent unnecessary wear.

YOGA MAT STANDZON

YOGA MAT STANDZON

Yoga is an ergonomically designed anti-fatigue mat that is ideal for standing work. It is a workplace mat made in the sound-absorbing polyurethane material. The mat has a smart handle, making it easy to hang on either wall or by your screen on the desk when it isn't being used. Fits hanging on the ScreenIT A30 hook. By standing throughout the day you are helping your body to stay healthy, all while building a better posture. Why not use Yoga mat to do simple yoga or gymnastics exercises at lunch?

DOT STANDZON

Anti-fatigue mat Dot Standzon

Soft ergonomic mat in cork, textile-clad surface (red, grey, black) and anti-static (black patterned). The core is made of absorbing and silencing material polyurethane. Ø 600 H. 18

ANTI-FATIGUE DOT STANDZON

Dot Standzon, a sibling to popular Yoga Mat Standzon. The round shape nicely breaks off the classic square and rectangular shapes office furnishing often consists of. By standing throughout the day you are helping your body to stay healthy, all while building a better posture. The mat is made of polyurethane material, which helps to relieve the body of the effort of stand up work. Can be chosen in three different textile colours, cork or anti-static black. With its smart handle, the mat can easily be hung on a hook mounted on the wall, desk or a ScreenIT A30, see page 118.

ANTI-FATIGUE MAT STANDZON

An ergonomically designed mat ideal for standing work. Standzon is a soft mat produced with polyurethane core which is sound absorbing and relieving. With its smart handle, the mat can easily be hung on a hook mounted on the wall, desk or a ScreenIT A30, see page 118. By standing throughout the day you are helping your body to stay healthy, all while building a better posture. Easy to wipe clean with a damp cloth.

ARTIFICIAL PLANTS, POTS, BASKETS

High-quality artificial plants for decorating offices, conferences and hotels. Our plants are lifelike and require minimal maintenance. An economical alternative when no contractual maintenance is required and obviously causes no allergy problems!

Above, from the left: Olive Tree in dark grey Verona large, Cycas Palm small in light grey Verona medium and Fiddle Leaf Fig Tree small in dark grey Padua small.

Below, from the left: Bambu small in light grey Milano wide, Aloe Vera in light grey Padua small and Orchid Phalaenopsis in included glass pot.

ARTIFICIAL PLANTS

Add green details in the shape of our lifelike plants to decorate the office, hotel or conference. Natural elements create a welcoming feeling and our bigger plants act as both great interior details and perfect room dividers. The plants are just as perfect next to your desk as in an own oasis together with a group of our comfortable Office Nap, see page 104.

Note: Oil Drum and outer plant pots/baskets are not included unless otherwise specified, even if it is in the picture. High-quality artificial plants for decoration of offices, conferences and hotels. Plants are lifelike and require minimal maintenance and are also very good against allergies.

DECORATE WITH PLANTS

Our smaller plants can be used in several ways in pots and the Plant Divider where a finishing layer of slate or wood chips adds a nice touch. Several of the plants have their own stylish pots that are included, these can also be planted or placed straight on the table. An easy way to create a dynamic impression is to mix high and low types of plants.

Largest diameter dimensions are specified. External dimensions are specified (pot).

POTS, BASKETS AND OIL DRUMS

Combine our stylish pots and oil drums with each other to set the right tone in your interior. Easily create a dynamic and modern oasis by combining sizes, nuances and shapes. Use as a room divider or to create a welcoming, furnished space. Place the plant in a pot or oil drum and add some mulch for an extra stylish finish.

Tip: fill the pot with paper, packaging or similar to raise the plant. Then add wood chips or decor stone.

PLANT DIVIDER

Plant Divider is the textile dressed room divider that is combinable with plants and doubles as a personable and flexible interior design detail. Being built with 30 mm sound absorbents, they contribute to a better sound environment and are also mounted on lockable wheels for easy movement. Plant your choice of greenery from our assortment in a Milano Wide pot and place on the shelf inside for that modern and welcoming touch in your spaces.

PLANT DIVIDER

THE LIGHTNING FLOOR LAMP

The Lightning is a floor lamp that suits all types of spaces. It has an uplight and a downlight function with touch buttons to adjust the light in three steps. The head is rotatable, allowing the beam to be directed in the desired direction, which improves the ergonomics. The LED module has a very long life span.

With its clean expression and smart functions, The Lightning is a great fit at the office as well as in lounges, lobbies or schools. Also available as a desk version.

THE LIGHTNING DESK LAMP

With stylish design and a good ergonomically correct light that illuminates both upwards and downwards, The Lightning is an excellent choice. A modern LED module design with touch buttons for brightness adjustment in three different positions. LEDs have an long life span.

Can be mounted directly in the desk or in a Table Top Slim. The advantage with mounting in a Table Top Slim is that it gives an easy access to an extra outlet. Also available as a floor model.

Re Turnit is a recycling module made of sheet metal that can be combined with three different tops in MDF. The tops have different cut outs to suit different recycling: circle, thin rectangle and large opening. Re Turnit can stand as a solitaire module or two opposite each other, creating a hexagon; add the plant box to one and add our artificial plants. The module can also be mounted on the wall.

RE TURNIT

5 sustainability digitization

pCon Planner – 3D-drawing

You can find all of our products in pCon Planner and can easily use them in your drawings. We have designed a digital design tool together with pCon Planner so that you can choose the look of our products online and download images and drawings. In the application pCon Facts you can furnish spaces with our products in real time. This tool helps you visualize all ideas without any limits. It makes it easy to see how our products look and work in different environments, how colour combinations work together and essentially gives you a concrete picture of the result.

technical data is correct and fulfills both Swedish and international standards. Acoustic Facts is a tool where you can easily calculate the room's acoustic needs. Enter your room specifications in our template and receive information about how

content management system for BIM objects and plays an important role in architects' every day work. A BIM object can be described as a digital copy of a produced product and can be used in drawing environments in the first phase of planning and designing new projects. Today, Gotessons has 50 products as BIM objects, for example The Hut Lounge Collection, artificial plants, monitor arms and lighting, as well as 5 showcases. A showcase is a group of BIM objects that are downloaded as a complete package, simplifying the design process. One example of a Gotessons showcase: table equipped with a Gotessons A30 desk screen, ZAP Twin monitor arm, Tulip LED Lamp and Max Power Grommet.

Acoustic Facts – acoustic measuring tool

For you to feel safe in your choices as a customer, our absorbents are measured and evaluated. This guarantees that all

many absorbents are needed to achieve the desired acoustic result.

Bim Objects – digital objects

BIMObject is the world's largest digital

Götessons makes a digital investment and launches an e-commerce for their customers; it will work as a complete sales tool with a big focus on the user.

The digitization continues

To meet the big demand of digitalised commerce, Gotessons launches an e-commerce for their customers. They will easily be able to place orders, request quotes, design their own product choices, create sales materials, see previous orders, quotes and invoices. – We wanted to build a platform for our customers which gives them more than a buy button. Here, they can reuse orders, go from quote to order

and create stylish sales material to use when they present projects, explains Jessica Carlstein, Marketing Manager at Gotessons.

Complete solutions for different environments

It's Götessons' 10 years anniversary for their textile products and the wide product range offers customers the possibility to choose complete solutions for most types of spaces; offices, schools, conferences, sport halls, hotels and hospitals are examples of facilities where Götessons products are used. There is a big focus on developing products that create sustainable environments, which is why the

assortment is permeated with ergonomic and acoustic functions that create a better environment.

How do you shop?

To shop from Götessons e-commerce, you have to be a registered customer with them. If you are, you create an account on www.gotessons.com and are given access to My Pages where you can see prices and access all the e-commerce functions. If you want to become a customer with Götessons, contact their support on ecommerce@gotessons.se for more information.

"The e-commerce also ties together the digital platforms we are already on today. You can download over 50 products as BIM objects and draw into your projects, calculate our products acoustic ability in a room via Acoustic Facts and now also purchase them straight from our website. It's all a part of making it easy for the customer to buy from us."
– Jessica Carlstein, marketing manager.
